### Exam Answers

Justify your answer.

Yes. Addition of an excess of 0.20 M  $\text{AgNO}_3$  (aq) will precipitate all of the I ion present in the solution because  $\text{AgI}$  is insoluble, as evidenced by its low value of  $K_{sp}$ . 1 point is earned for the correct answer with a valid justification. (ii) The student only has access to one KI

### Exam Answers

Today marks another 'ending' to the inaugural, AP Chemistry course that examined the new curriculum for the first time in May of 2014. I say 'another ending' since there have been at least two other 'endings' up this point. The first ending was when I finished teaching the course, the second ending was when the [...]
