age, social status, and individual societies. Social control is a way society has of encouraging conformity to norms. It consists of positive and negative sanctions. Positive sanctions are socially constructed expressions of approval. Negative sanctions are socially constructed expressions of disapproval.

Deviance: Quick Review | SparkNotes

Deviance and social control are essential for the living societies. The ratio between the deviance and effectiveness of social control dictates the stability of the society. More deviance and less social control destroys the society, whereas, less deviance and more social control makes the society more stable and prosperous.

Social Control and the Relativity of Deviance

7.1 Deviance and Control. Deviance is a violation of norms. Whether or not something is deviant depends on contextual definitions, the situation, and people's response to the behavior. Society seeks to limit deviance through the use of sanctions that help maintain a system of social control.
