Exam Discussion: Environmental Systems & Societies SL paper 1

Host-associated microbial dynamics are influenced by dietary and immune factors, but how exogenous microbial exposure shapes host-microbe dynamics remains poorly characterized. To investigate this phenomenon, we characterized the skin, rectum, and respiratory tract-associated microbiota in four aquarium-housed dolphins daily over a period of 6 weeks, including administration of a probiotic ...

240 teaching hours for HL subjects and 150 hours for SL. Subjects at HL are studied in greater depth and breadth than at SL.

Environmental systems and societies guide

Biological field stations are expected to have an increasingly important role in ecological research because of mounting environmental concerns and the growing importance of ecological research networks. Kansas has several well-known field stations that occur along an east-west precipitation gradient, but these sites are primarily located in the northern half of the state. In this paper, we ...
